

California OES Weather Threat Briefing

Sunday, November 14, 2021
9:00 AM PST

Day 1 (Sunday): Areas of dense fog will continue across portions of the Central Valley through late morning, redeveloping again overnight. Locally breezy winds will bring some areas of elevated fire weather conditions to the southern California mountains today as well.

WEATHER KEY POINTS

11/14/21 - 11/20/21

Sunday-Saturday

- Areas of dense fog will continue each night and through the late morning hours across the Central Valley through at least Monday, bringing poor visibility at times
- Locally breezy winds will bring some areas of elevated fire weather conditions to the southern California mountains through Sunday
- A couple rounds of gusty winds and light to moderate showers are expected this week, first across far northern California on Monday, then potentially more widespread across northern California on Thursday
- Another weak Santa Ana wind event is possible across southern California next weekend
